Ross B. Elliott, Director
Utah Division of Parks & Recreation
1636 West North Temple
Salt Lake City, Utah 84116

Dear Mr. Elliott,

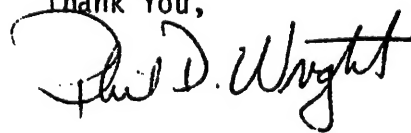

The Wasatch City-County Health Department over the years has had concerns about the lack of adequate sanitation facilities, water supply and solid waste disposal around Deer Creek Reservoir. We feel that the reservoir will continue to grow as a recreational facility and that if measures are not taken to improve this facility, that a much greater pollution burden will occur from human abuse.

We are excited that you are developing a general management plan and we would like to extend our support in efforts to prevent further health related problems from occurring.

We understand that your department feels that the best way to achieve the desired goals is to have a single concession that would have operation rights for the entire reservoir. If this is correct then we would support you in that concept. We would however, like you to persue in such a manner that individuals now running concessions might have the opportunity to develop their concessions meeting all state and local requirements.

Again we appreciate the Divisions' efforts and the Board of Health gives their full support in efforts to develop Deer Creek.

Thank You,

Phil D. Wright, M.S., R.S.
Wasatch City-County Board of Health

* Wasatch County Health District Department has noted the following changes in Primary Care Physician count since publication of the 1983 report:

Primary Care Physicians:

Number by Specialty

FP 0

GP 9

OBG 0

PED 1

IM 0

GLOSSARY OF HEALTH RELATED TERMS

Fertility Rate

The number of resident live births divided by the total resident population X 1,000.

Infant Mortality Rate

The number of resident infant deaths divided by the total resident live births X 1,000.

Live Births

The complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy, which after separation, shows evidence of life. This number is shown for each county.

Primary Care Physicians

Basic or general health care provider from whom a patient first seeks assistance. This includes general practitioners, family practitioners, internists, obstetricians, and pediatricians.

Teenage Pregnancy Rate

The number of live births to women age 15 to 19 per 1,000 women residents of that age.

MAYFLOWER MOUNTAIN SKI RESORT COMMENTS

The Wasatch City-County Health Department would like to make sure that the following items are identified and considered during the planning stages of the proposed Mayflower Mountain Ski Resort.

- 1) Culinary Water Supply
 - a. water source quality and quantity
 - b. water rights
 - c. source development and protection
 - d. storage
 - e. distribution system
 - f. commercial and household usage
 - g. certified operator for the system
 - h. plan approval by State Health Department and the Wasatch City-County Health Department
 - i. other items as required by the Utah Public Drinking Water Regulations
- 2) Waste Water Disposal
 - a. Heber Valley Special Service District accepting waste water
 - b. placement and size of line to allow additional connections between the development and the treatment plant
 - c. alternate site should the HUSSO turn down the request for connection to the treatment plant
 - d. waste water disposal for ski lift stations at top of ski lifts
- 3) Solid Waste Disposal
 - a. Present landfill site is not large enough to accept anticipated increase in solid wastes (15 year life expectancy is not realistic).
 - b. handling of garbage at development (transfer stations, solid waste management plan, etc)
 - c. impact of construction debris during development
- 4) Air Quality
 - a. parking lot
 - b. evaluation by State Health Department
- 5) Public Health Services (nursing and environmental health)
 - a. anticipated work load increases
- 6) Alcohol and Drug Related Problems
- 7) Swimming Pools & Hot Tubs
 - a. community or private
 - b. if community....operation and maintenance

HEARING PROCEDURE

2-23-84
12:00 Noon

1. Introduction of the problem *Sept 82 informal hearing -*
 - a. type of business *2 Dec 83 - closed - 50 score (60 or less)*
 - b. owner *Jan 5*
 - c. why hearing was called
2. Responsibility of health department
 - a. protect the public health
 - b. enforce state health laws and regulations
 - c. administer all local ordinances, regulations and standards pertaining to public health
3. Purpose of Hearing
 - a. determine what action should be taken
 1. clean up and or remodel to meet code
 - (a) written commitment acceptable to board of health
 - (b) time limit
 2. recommend closure
 3. recommend court action
 4. recommend no action
 - b. what does owner intend to do to solve the problem
4. Finding of fact and conclusions
 - a. A record of summary must be taken and filed with the health board.
 - b. Judicial review of determination may be secured by any person adversely affected.
